CRISIS INTERVENTION GUIDE

Look For Warning Signs

- Threatening to hurt or kill oneself
- Seeking access to pills, weapons, or other means
- Giving away possessions
- Talking or writing about death, dying or suicide
- Withdrawing from family and friends
- Engaging in risky behavior
- Increasing alcohol or drug abuse

**IF YOU NOTICE ANY OF THE WARNING SIGNS
ASK THE FOLLOWING QUESTIONS:**

	In The Past Month	
Answer Questions 1 and 2	YES	NO
1. Have you wished you were dead or wished you could go to sleep and not wake up?		
2. Have you actually had any thoughts about killing yourself?		
If YES to 2, answer questions 3, 4, 5 and 6		
If NO to 2, go directly to question 6		
3. Have you thought about how you might do this?		
4. Have you had any intention of acting on these thoughts of killing yourself, as opposed to you have the thoughts but you definitely would not act on them?		
5. Have you started to work out or worked out the details of how to kill yourself? Do you intend to carry out this plan?		
ALWAYS Ask Question 6	In The Past 3 Months	
6. Have you done anything, started to do anything or prepared to do anything to end your life?		
Examples: Collected pills, obtained a gun, given away valuables, written a will or suicide note, held a gun, but changed your mind about using it, cut yourself, tried to hang yourself, etc.		

Any **YES** must be taken seriously. Seek help from friends, family, co-workers and inform them as soon as possible.

If the answer to **4, 5, or 6** is **YES**, immediately **ESCORT** to Emergency Personnel for care.

Do Not Leave The Person Alone.
Stay engaged until you make a warm hand off to someone who can help.
